

Handwritten diagrams illustrating phishing and banking attacks:

- Phishing:** A diagram showing a user entering "facebook.com" into a browser. The browser then displays a fake "facebook.com" page with a login field and a checkmark. A "2FA" (Two-Factor Authentication) label is present, indicating the user is being prompted for a second factor.
- Banking:** A diagram showing a user entering "banking" into a browser. The browser then displays a fake "banking" page with a login field and a checkmark. A "2FA" (Two-Factor Authentication) label is present, indicating the user is being prompted for a second factor.
